Stainless Steel

420 A / 1.4021

431 /
1.4057

1.4021 is a martensitic stainless steel rich in carbon with a chromium content of 12%, with good corrosion resistance against moderate corrosives such as organic acids, soaps and solvents and in chloride-free environments.

630 /
1.4542 / 17-
4 PH

Machine manufacturing, medical equipment, petroleum and petrochemical industry, hydraulic industry, manufacture of pumps, valves and compressor parts are its main application areas.
